

Beginning the Year Study

Dear Families,

The beginning of a school year can be very exciting! Some of the children have not seen their friends the entire summer and have been enjoying catching up with them. Our new friends have been getting to know their new school family by meeting their new teachers and friends. The children have already begun our first study of our new curriculum "Beginning the Year".

The children will explore the many aspects of school through our first study. They have already learned their friends and teachers names and what they should do if they feel sad or scared at school. As we continue the study we will learn the rules and routines of the classroom, along with who works in our school. They will learn how to make and keep friends and ways to be part of a group.

The children will become an important part of our classroom by being responsible for a class job each week, which will help build our classroom community. The children will also be reviewing ways to care for our new materials and each other.

Thank you for your continued support and we look forward to a wonderful start to the 2019-2020 school year!

Thank You,

Ms. Shannon and Ms. Syasia
